### Assignment

As part of being a world-traveling scholar, you're going to also engage others in the class in a dialogue about their experiences. Throughout your time abroad, post at least 5 responses to others on Flipgrid. These should be meaningful and respectful responses to your classmates that demonstrate your participation in creating this learning community.

You can respond to up to 2 introductory videos. You can respond to responses from others on your videos as long as you have a meaningful response that adds to the conversation. Some examples of the kinds of responses that you might post:
