

# Global Learning: Connection

## Global Citizenship Project Assignment and Rubric

---

According to Oxfam, Global Citizenship is defined as *“someone who is aware of and understands the wider world - and their place in it. They take an active role in their community, and work with others to make our planet more equal, fair and sustainable”*. After studying abroad and taking part in this course, the goal is that you are closer to gaining awareness and skills as a global citizen.

### Assignment

For this assignment you may choose to work individually, in small groups, or as a class. You will need to identify a need in the campus/local/global community, create a plan for contributing towards the solving of this need, carry out the plan, and present on your work. This is an opportunity to give back/pay it forward as a global citizen and make the world just a little bit better. The parameters and plan of action for this project will be determined in class and must be approved by the instructor by presenting a proposal of the plan prior to carrying it out.

A final presentation on your project will be required and will take place on the last day of class in Century Theater, MU.
